

OJ Table

Design: Ole Jensen

Concept: The fixture emits soft, comfortable and glare-free light. The shade design seeks to create soft, decorative illumination of the top and bottom of the shade, giving the impression that the light is being squeezed out of the openings. The thickness and surface of the shades "retain" the light, thereby creating the perception that the shade is illuminated from within. A detail that is achieved in part due to the structure of the surface. The angle of the shade results in uniform circular illumination, providing good working light and good distribution across the table surface.

Finish: White with a textured surface, powder coated.

Material: Shade: Pressed steel. Base: Pressed steel. Stem: Steel.

Mounting: Cord type: White with plug. Cable length: 8'. Switch: On/off switch located in the base.

Weight: Max. 7.7 lbs.

Label: cULus, Dry location. IBEW.
