

12100-20/40 LENS MAINTENANCE INSTRUCTIONS

BEFORE YOU BEGIN

Read and follow all safety instructions

WARNING

RISK OF FIRE, EXPLOSION AND ELECTRIC SHOCK

- Turn off electrical power before inspection, installation or removal.
- Use only UL (or other NTRL) approved wire for input/output connections.
- Make sure LEDs and drivers are cool to touch when performing maintenance.
- Make sure the supply voltage is the same as the rated voltage of the luminaire.
- Do not install in a hazardous atmosphere, except where the ambient temperature does not exceed the rated operating temperature of the fixture.
- Keep tightly closed when in operation

Prepare Electrical Wiring

Electrical Requirements:

Must check if the local voltage range is correspond with the working voltage of the fixture. Use min. 75°C supply.

Grounding Instructions:

The grounding and bonding of the overall system shall be done in accordance with NEC Article 600 and local codes.

Safety Precautions:

Follow all applicable safety procedures and use Personal Protective Equipment such as hardhats, safety glasses, reflective vest, electrical safety gloves, fall protection equipment and safety toe boots during the installation, operation, and maintenance of the luminare.

12100-20/40 LENS INSTALLATION INSTRUCTIONS

Snap in and insert one end with gentle force.

Run hands through the length until about 2/3 way and stop.

Skip the remaining 1/3 and go to the end of the fixture. Repeat #1.

Run hands through the opposite direction to fully close the lens.

Make sure the lens is completely and properly installed all the way.

12100-20/40 LENS REMOVAL INSTRUCTIONS

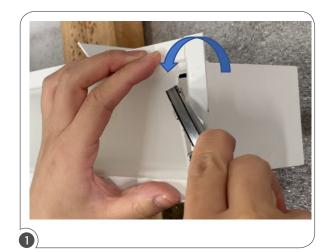

Tools Needed:

Utility Knife

Important Safety Notice:

Always use the utility knife with the correct tools. Using improper tools may result in damage to the knife and could lead to personal injury.

Insert blade and gently lift at an angle to remove one leg of the lens first.

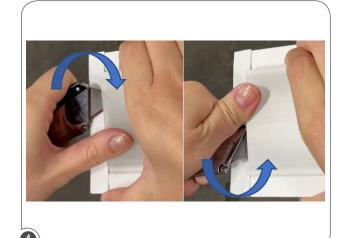

Then aim the blade towards the other leg of the same side to completely remove one side.

Gently lift up and work your way through the length up to about 2/3 way and stop.

12100-20/40 LENS REMOVAL INSTRUCTIONS

Skip 1/3 remaining and go to the end of the fixture. Repeat #1 & #2.

Remove the lens completely.
