1 Compatible with various wall types. The installer must use appropriate screws suitable for each specific wall type. A mounting accessory is included for both trimless and flange mount types, allowing for adjustable spacing between the fixture and the wall, ranging from 0.5 inches (minimum) to 0.88 inches

(maximum)

2 For grid installations, an 18-gauge ceiling wire or tile hanger wire is required but not included. Please refer to the installation instructions for additional details. Suitable for T-bar and Screw slot grids.

3 For Hard and Wood ceiling, a 3/8" threaded rod is required for fixture installation and is not included. Please refer to the installation instructions for further details.

4 Ideal for installations where the grid structure is mounted to the wall, allowing the trim to rest on the grid structure on both sides.

5 ldeal for installations where no grid structure is attached to the wall, allowing the fixture's trim to rest on only one side

6 A sliding side piece allows for adjusting the light's visibility at the ceiling level. The fixture can also be recessed deeper into the ceiling plane for a more subtle lighting effect
