### RGBW Control Series

Alcon Lighting offers RGBW/Color Temperature 4-Zone and 8-Zone Handheld Remote Controls designed for flexible and intuitive lighting management. Available in a white finish, these wireless remotes provide seamless control of RGBW color changing, tunable white color temperature adjustment, and dimming functions across multiple lighting zones. With the ability to organize fixtures into four or eight independent groups, users can easily create and manage customized lighting scenes, delivering precise control of color, intensity, and ambience for a wide range of residential, commercial, and hospitality applications.

## RGBW Remote Control

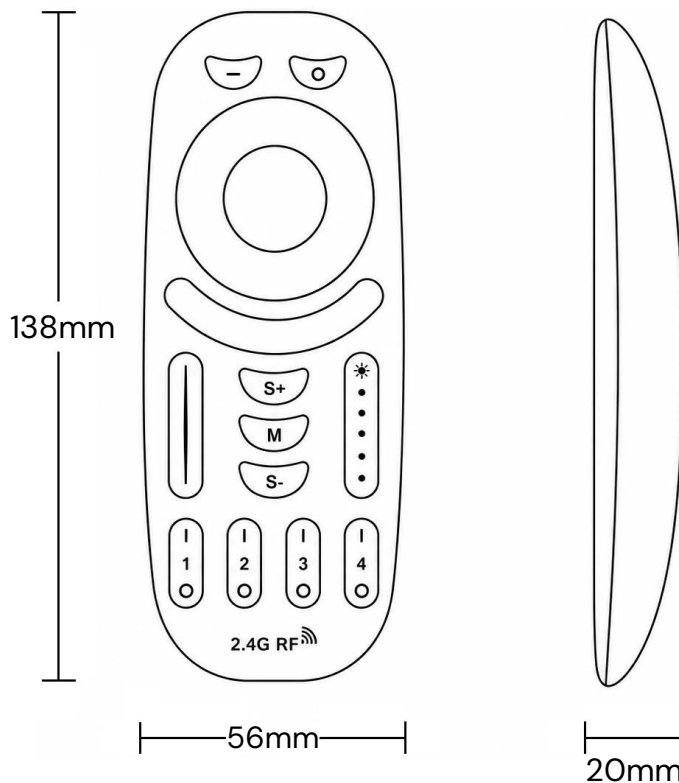

The 4-Zone Handheld Remote for RGBW Control provides intuitive wireless management of dynamic lighting schemes across multiple zones. Using 2.4 GHz wireless transmission, it enables smooth dimming, adjustable light color mixing, full-spectrum color changes, and precise saturation control with up to 16 million RGB color options. Suitable for architectural, hospitality, retail, and residential applications, the remote offers flexible control through its defined zones, supporting seamless integration with compatible receivers and lighting systems.

## FEATURES

- Finish:** White
- Voltage:** 12VAC (2\*AAA Battery)
- Channels:** 4-Zone Control
- Remote Distance:** up to 100-ft
- Listing:** RoHS, CE
- Weight:** 3.3lbs
- Warranty:** 5 years carefree for parts & components (Labor not included)

## DIMENSIONS

**RGBW Remote Control**

The Color-Changing RGBW 8Z Zone Remote Control provides flexible lighting management for residential and commercial applications. Designed for projects that require adaptable lighting scenes, it enables RGBW color changing, dimming, and wireless control through a 2.4G connection. With the ability to organize fixtures into up to eight independent zones, architects and lighting designers can easily tailor lighting environments across multiple rooms or areas while maintaining a cohesive design experience.

**FEATURES**

- Finish:** White
- Voltage:** 3V (2\*AAA Battery)
- Channels:** 8-Zone Control
- Transmitting Power:** 6dBm
- Remote Distance:** 30M (Line of Sight)
- Operating Temperature:** -20°C ~ 60°C
- Standby Power:** 20uA
- Transmission Frequency:** 2400-2483.5 MHz
- Modulation Method:** GFSK
- Listing:** RoHS, CE
- Weight:** 0.214lbs
- Warranty:** 5 years carefree for parts & components (Labor not included)
