## INTENDED USE

The 4-Inch Stainless Steel In-Ground Drive-Over LED Well Light is designed to deliver safe, discreet illumination in high-traffic outdoor areas. Ideal for pathways, walkways, driveways, and staircases, it also provides uplighting for trees, sculptures, or architectural features. Its recessed, low-profile form enhances landscapes without visual clutter, while optional beam angles and glare-free light ensure flexible, efficient illumination in patios, gardens, and building exteriors.
