

FEATURES & SPECIFICATIONS

INTENDED USE — Ideal for use in applications where smart, energy-efficient fixtures are desired. Typical applications include parking garage, canopy, transportation, school, hospital, cold storage and exterior retail environments where moisture or dust is a concern. Polycarbonate enclosure protects fixture while remaining easy to service and clean.

CONSTRUCTION — UV-stabilized, injection-molded, impact-resistant, frosted polycarbonate housing with continuous poured-in-place, closed-cell gasket. 20-gauge steel channel and channel cover. Aluminum sheet metal board plate for thermal conduction and support. Fixture design allows for uplight.

OPTICS — UV-stabilized, injection-molded, impact-resistant, clear transparent, polycarbonate lens with aesthetic rib detail (.080" thick). Asymmetric (ASY) optical control film provides broad light distribution (ideal for lower mounting heights). Symmetric (SYM) optical control film is well suited for general lighting environments. Clear transparent, tamper-resistant, polycarbonate latches standard (8 tamper-resistant screws included). Stainless steel latches also available.

ELECTRICAL — Utilizes high-efficiency LEDs mounted to core circuit boards. 4100 Kelvin temperature standard, with 5700K also available. High efficiency driver operates 100V through 277V, 50-60HZ. Integral surge protection tested in accordance with IEEE/ANSI C62.41.2 to Category C Low. Includes a temperature-sensing component that will limit the temperature of the LEDs in case of excessive ambient temperatures or mis-application. One driver used for 39W and 59W; two drivers used for 79W and 114W. Bi-level control option and low (0-10) voltage dimming available. L93 at 60,000 hours (350mA) and L85 at 60,000 hours (525mA).

INSTALLATION — Stainless steel surface spring-mounting brackets standard (2 included) allows for ceiling or suspended mount. A variety of stainless steel mounting options also available: J-box mounting and mounting brackets for suspension with aircraft cable (cable not included). Optional stainless steel V-hooks available for chain hanging (chain not included). Surface conduit entry on each end and on top. For horizontal mounting on a wall, application must be under a covered ceiling and QMB option recommended. 1/2" - 3/4" KO.

LISTING — CSA Certified to UL and C-UL standards for ambient temperatures ranging from -20°C to 40°C. NOM Certified (see Options). Suitable for wet location. Product will be rated for damp location only when wall mounted. IP65 rated.

Meets Designlights™ Consortium requirements for *Fuel Pump Canopy* (standard). Meets Designlights™ Consortium requirements for *Parking Garage Luminaires* (see Options).

See "ARCHWAY™ PASSAGE™ LED Specification Matrix" below for ambient temperature listings.

WARRANTY — Five-year LED board and driver warranty.

Rough Service products by Lithonia Lighting are engineered to withstand extreme physical assault. When properly installed per instructions for maximum vandal resistance, any rough service polycarbonate lens and/or polycarbonate housing enclosure that is rendered inoperable as a result of physical abuse, will be repaired or replaced without charge for the life of the product.

- Notes**
- The CCT value provided is of lamp source and actual CCT will vary upon levels.
 - Non-DLC compliant.
 - For additional options, consult factory.
 - Must specify voltage.
 - 5/8" long NPT threaded hub.
 - Requires CMB (chain mount bracket) option.
 - For stainless steel, specify STS (example: HC36 STS).
 - Available with 79LED and 114LED only.
 - For mounting up to 8', specify MSI8; for mounting up to 20', specify MSI20.
 - Not applicable with ASY or SYM optical film.
 - 4100K and 5700K are LED CCTs.
