Manuka

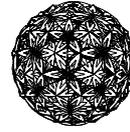

Manuka

The inspiration for Manuka came from the native New Zealand Mānuka flower and diatom structures. It is a new development in pendant spheres where multiple peripheral LEDs replace the standard single central bulb. An intricately patterned sphere made up of 32 "flower" shapes with 12 LEDs embedded in this shell structure. The pin-point light sources cast magical overlapping shadow patterns. Made from bamboo plywood, aluminium and polycarbonate. Shipped as pack-flat in two sizes.

Packaging

You will need

Fixings for cone gripper (fixing screws NOT SUPPLIED).

Note: Choose appropriate hardware to attach base plate (Fig.1) to ceiling substrate.

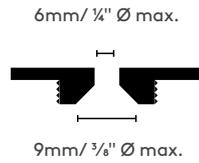

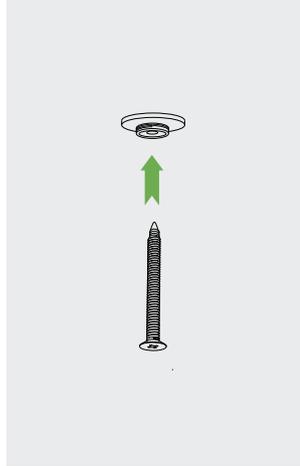

Fig 1. Base Plate

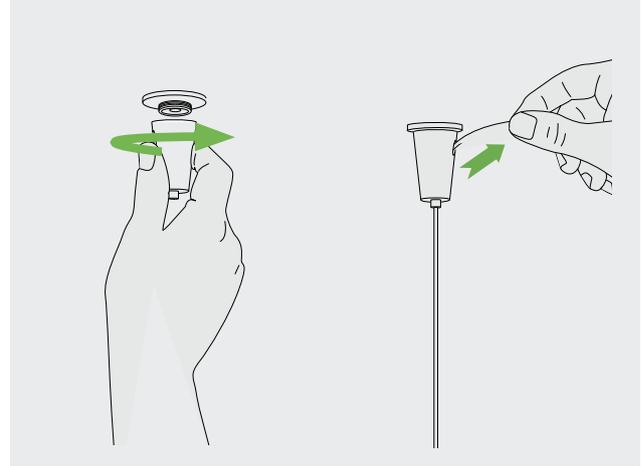

Installation

Step 1.
Unscrew baseplate.

Step 2.
Use appropriate fixing screw to mount base plate (Fig.1).

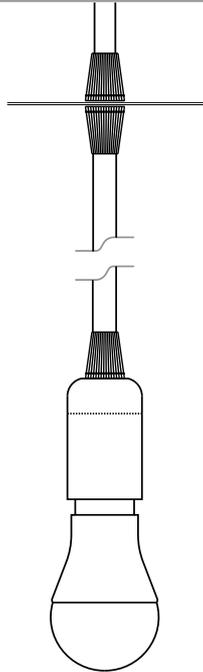

Step 3.
Remove cable from cone. Screw cone back onto baseplate. Re-insert cable and level light. Once desired position is set, trim excess cable.
