

Slot 6 LED, the most versatile member of the Slot family, offers endless creative possibilities. It also boasts higher efficiencies and it's a perfect fit for Armstrong TechZone™ ceiling systems.

Slot 6 LED is a natural choice for spaces that emphasize basic lines and clean design.

Project:

Catalog Number:

DO NOT TYPE HERE. Autopopulated field.

## Specification Features

### Housing

Nominal 6" x, 4', 5', or 8' units fabricated from cold-rolled steel 20ga. Ceiling trim is extruded aluminum.

### Finish

Matte white.

### Reflector

Precision-formed steel; high reflectance white.

### Shielding

Nominal 1/4" -thick P95 Opal acrylic with rabbeted ends to prevent light leaks against downlight components. Optional 1/8" 90% transmissive poly carbonate lens with a textured surface provides diffuse illumination and a uniform appearance.

### LED Components

Linear:

Nichia® - 757A -V1 LED chips (>80 CRI)

Normal Output: 6 W/LF, 60 LM/W\*\*

Hi Output: 12 W/LF, 60 LM/W\*\*

### Driver

LED Driver allows for 0-10V dimming, flicker-free from 2 to 100%. Universal input voltage 120-277VAC, 50/60Hz. Integrated thermal fold-back management to prevent over heating.

### Color Consistency

The Acuity Brands circuit boards for the linear LED components use a precise binning algorithm which creates a consistent color temperature from board to board. Color variation is no greater than a 2.5 Step MacAdam (2.5SDCM) along the black body locus from board to board.

### Integrated Controls

Optional nLight® embedded controls make luminaire addressable- allowing it to digitally communicate with other nLight enabled controls such as dimmers, switches, occupancy sensors and photocontrols. Simply connect all the nLight enabled control devices using standard CAT5 Cabling. (Option: N100)

### Lumen Management

An optional lumen management system provides onboard intelligence that actively manages the LED light source so that constant lumen output is maintained over the system's life, creating a consistently illuminated environment while preventing energy waste. (Option: N80)

### Mounting

Recessed. Available for sheetrock, 9/16" slot grid or 15/16" inverted tee ceilings, or 9/16" inverted tee.

### Certification

CSA Certified to meet U.S. and Canadian standards, rated for Chicago Plenum, and IBEW (Local 3) Union-made in the USA.

### Shipping

10 business days from clean release.

### Warranty

5-year limited warranty. Complete warranty terms located at [www.acuitybrands.com/CustomerResources/Terms and conditions.aspx](http://www.acuitybrands.com/CustomerResources/Terms%20and%20conditions.aspx)

### Notes

- Specifications subject to change without notice
- Actual performance may differ as a result of end-user environment and application

## Ordering

Example: S6LOTM 4FT FL N35GEDR 120 SW N100 CP

Series	Length	Ceiling Trim	Linear LED <sup>2</sup> Output	Linear LED Color Temp	Driver	Voltage	Shielding	Integrated Controls	Options
S6LROTM	Regressed Lens 4FT 4' 5FT 5'	FL 5/8" flange (sheetrock)	N Normal Output	35 3500K	GEDR Constant Current Driver, 0-10V 2% Dimming	120 277	SW 1/4" P95 opal acrylic	N100 N100 nLight with outLumen mgt	CP Chicago Plenum
S6LFOTM	Flush Lens 8FT 8' _FT <sup>3</sup> Cont. Row	TG Flat or Inverted Tee GB Trimless <sup>1</sup> (sheetrock)	H High Output				HT 90% transmissive textured poly carbonate	N80 N80 nLight with 80% Lumen mgt NX Dimming, No nLight	

Continuous Runs: 250 l/ft maximum per total order

Quantity Limits: 100 units each length ( 4ft, 5ft and 8ft)

### Notes

- Not intended for post sheetrock installation.
- Delivered lumens are variable and contingent on LED color temperature and fixture configuration.
- Continuous runs available in 4ft increments up to 40ft.
