TXL Outdoor Floor Lamp

Item Code: MAR-TXL-FLOOR

Description: Design by Joan Gaspar
By Marset

An imposing outdoor lamp. Designed to illuminate gardens and terraces, TXL emits an extremely warm light, just like an indoor lamp. Tough and impressive, the floor version sits on a slate base which supports a voluminous shade made in fiber-glass coating with a plastic material. The shade of this floor lamp monopolizes the attention by creating a special effect by filtering the light through its weave.

The TXL Floor Lamp should be brought indoors during winter months or harsh weather. Available in two sizes in Textilene White.
