

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

- 1.** Remove the fixture from its original packaging. Remove the mounting plate (1c) from within the fixture (2b) by removing the screws (2a). Pull out the mounting plate (1c) from within the fixture (2b) and attach to the electrical junction box (1a) using the two screws (1d) provided in the hardware package. Make sure to reinforce the wood behind the drywall for extra support and use the wood screws or anchors (1e,1f) to secure the mounting plate (1c) to the wall.
- 2.** Connect all wiring with the provided marrettes (1b) (white "N", black to black "L", ground to ground "G"). Attach the fixture (2b) to the mounting plate (1c) and secure with screws (2a).
- 3.** You have now completed the installation of your fixture, do enjoy.
