FIXTURE SPECIFICATIONS

INTENDED USE

Architectural specification-grade Alcon Lighting 13997 Track Lighting Channel Aircraft Cable Suspension Mount is ideal for extending track lighting. For use on flat or sloped/angle ceilings, our 1/16" steel aircraft-grade cable comes available for t-bar, jbox and panel mounting with lengths from 50" to a maximum of 150". This cable suspension kit is a self-locking device with a spring-loaded gripping mechanism allowing the gripper to easily unlock for adjusting cable length as needed. The perfect solution for retail and commercial suspending layout applications.

FEATURES
