

Project Name: _____ Type: _____ Quantity: _____

INTENDED USE

The 8-Inch In-Ground RGB LED Well Light combines durability and energy efficiency with a sleek, modern design. Equipped with a heat-resistant tempered glass lens, it maximizes light output while providing protection against environmental elements. The remote-controlled RGB color-changing feature allows for versatile lighting options, making this stainless steel fixture ideal for enhancing the ambiance of steps, walkways, gardens, parks, or any outdoor space where both functionality and style are essential.

FEATURES
