

Smooth Flicker-Free Dimmer Compatibility

UniDim™ intelligent lighting technology eliminates the gaps, jumps and sections of inconsistency that are typical when controlling LED products with Triac/Incandescent controls. UniDim™ provides the same smooth, uniform response when dimming LED that you would expect when dimming an incandescent product.

Reduce Inventory & Fixture Variety

Distributors supplying new construction projects can now purchase and warehouse just one product to accommodate several different projects. Specifiers can now use just one product to satisfy all the needs of a project regardless of existing or planned wiring or lighting control systems.

All-In-One Universal LED Driver

- Universal Dimming (ELV, Incandescent, 0-10V)
- Universal Voltage (120V/277V)

- Multi-Watt Compatible (19W/25W)
- Multi-Lumen Compatible (1400Lm/2000Lm)

Dimmer Wiring Diagrams

Four Great Reasons to choose UniDim™

1. Avoid Expensive Rewiring or Dimmer Replacement
 - UniDim™ works with Incandescent/Triac, 0-10V and ELV Dimmers.
2. Avoid Dimmer Compatibility Issues
 - UniDim is compatible with Lutron, Leviton and most popular dimmer systems.
3. Smooth Flicker-Free Dimmer Compatibility
 - UniDim delivers smooth, incandescent-like dimming performance from ELV, 0-10V, and 120V dimming systems.
4. Reduce Inventory and Fixture Variety
 - UniDim™ is available on several Alcon Lighting LED fixtures. Consult factory.

Stock or specify just one LED housing to handle most LED dimmers.
