

We are offering 110 Volt **150Ft Cool White Illuminated Flexible Led Neon Tube Rope Lights** ideally suited for commercial and home use in a wide variety of creative applications. Unique construction, 2-wires design, these flexible lights are able to directly replace traditional glass neon with better performance, low consumption, easier maintenance and can withstand extreme temperatures. Ideal for lighting solution, any architectural, decorative and indicator application, walkways, landscaping, store fronts, furniture, creating signs, borders or vehicles and watercraft lighting. Neon colors are far more efficient than other light sources because LED's create light in the specific color desired. All of our rope lights are guaranteed to be the highest quality.

Specification:

Length	150Ft
LED Bulbs qty	3600
Power Cord Length	9 Ft
Tube Dimension	13 *26 mm
Bulb Diameter	5mm
Bulb Spacing	1/2"
Bulb Orientation	Vertical
Beam Angle	160°C
Rated Lifespan	30000 hours
Color Temperature	7000k
Total Flux	4000-4500 mcd
Working Temperature	-30~60°C
Maximum Run	150Ft
Voltage	110V
Power Consumption	219W

Package Includes:

- 1x 150Ft Neon Rope Light
- 3x Power Cords with Connectors
- 6x PVC Splice Connectors
- 16x Splice Connectors
- 6x End Caps
